# Who we are?

At AccioJob (YC 2019), we are not just another Edtech platform; we are a passionate team of young visionaries with a mission to change the teaching landscape in India. Our goal is to bridge the gap between skills and employability in the ever-expanding and dynamic technology market.

Founded in 2018 by four batchmates of **IIT Delhi**, we're now a team of 200+ employees, backed by Marquee Investors like **Y Combinator**, **mynavi** and more. Students enrolled and taught here are currently working in some top MNCs and Startups like Amazon, Lowe's, HSBC, MakeMyTrip, DailyHunt, etc.

**Harsh Sharma**  
CTO, AccioJob  
 IIT Delhi

**Priyanshu Agarwal**  
COO, AccioJob  
 IIT Delhi

**Vishu Bansal**  
CPO, AccioJob  
 IIT Delhi

**Yashwardhan Burad**  
CEO, AccioJob  
 IIT Delhi

# Why you should invest your time?

“

Skills are the currency of the future, and upskilling is the key to unlocking a world of limitless possibilities.

-Chris Brauer

”

At AccioJob, we understand the challenges faced by students like **YOU** who have been exposed to **traditional teaching methods** that emphasize **rote learning**. We believe that true learning comes from **understanding concepts**, **hands-on experience**, and the **ability to apply knowledge creatively**.

Upskilling is more than just acquiring new knowledge; it's about nurturing a **growth mindset** and developing the skills that make you **stand out** in a competitive job market. Our platform encourages a **holistic approach** to upskilling, combining **technical expertise** with **soft skills** and **character development**.

# Discover the power of Studying MERN Stack!

---

But First, Why should you even study MERN Stack?

## Popularity & Demand

The MERN stack is widely adopted and highly popular in the web development community. Many companies and startups are looking for developers with MERN stack skills, which can lead to a plethora of job opportunities.

The entire MERN stack is built on JavaScript, which is one of the most popular programming languages. As a result, it allows developers to leverage their JavaScript knowledge throughout the entire development process.

## JavaScript Based

## Scalability & Performance

Each component in the MERN stack is designed to be scalable, allowing your applications to handle increased traffic and user demands effectively.

MongoDB, the NoSQL database used in MERN, provides flexible data modeling and easy integration with Node.js. This enables you to work with complex data structures and manage data effectively.

## Rich Ecosystem

## Modern Development Practices

The MERN stack encourages the use of modern development practices like Agile, DevOps, and continuous integration/continuous deployment (CI/CD), which are highly valued in the industry.

# Expert-Led Curriculum

---

Your path to Mastery in Programming by equipping you to conquer any challenge!

## **Fundamentals of Programming and Aptitude**

Introduction to programming. How to communicate with a computer.

## **Elementary Data Structures and Algorithms**

Fundamentals of DSA. Focus on problem-solving skills through practical exercises.

# What students have to say about us...

## Non-IT Working Professional

**Utsavi Patil**  
Software Developer at  
**LOWE'S**

"Salary jump from 3.6 to 12+ Lakhs in 10 months"

## Student with Career Gap

**Akash Ingoley**  
Software Developer at  
**PayGlocal**

"Completed B.Tech in 6 years now a SDE at PayGlocal"

## Student preparing for Govt. Exams

**Neel Ratn**  
Software Developer at  
**BAMBOO ROSE**

"Not getting through UPSC to working as a SDE"

## Student with CS/IT Background

**Abdullah Farhan Safwi**  
Software Developer at  
**MAERSK**

"From losing hope to now working as an SDE in Maersk"

## Student with Low CGPA

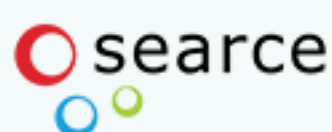

**Vineet Raj**  
Software Developer at  
**HSBC**

"From scoring less than 60% in college to working in HSBC"
